

# environmental policy

## 1 Activities

From its inception in 1989 the Northern Ireland Region of Shopping Centres (NIRSC) has existed to represent and promote the shopping centre sector in Northern Ireland.

Firmly committed to developing shopping facilities throughout the province, its 34 member centres welcome an annual footfall in the region of 100 million visitors.

A healthy Corporate membership broadens the Region's horizons and expands its influence.

The NIRSC has no offices and produces no product, but meetings and seminars, social events and study tours are arranged, all of which have an impact on the environment as will the activities of its individual members.

## 2 Preventing Pollution

The NIRSC will endeavour to minimize environmental pollution from all its activities and influence others to do the same.

## 3 Controlling Waste

The NIRSC will endeavour to minimize waste through espousing the '3 Rs' - Reduce, Re-use and Recycle.

## 4 Environmental Improvement

In all its activities the NIRSC will continuously work towards minimising its impact on the environment through the support and involvement of all members and associates and by means such as car sharing and communicating electronically

## 5 Compliance with Legislation

In all its activities the NIRSC will comply with all relevant environmental legislation.

## 6 Improvement Objectives

To improve member awareness of environmental issues through leadership and by promoting continuous education and training.

Signed 27th October 2008

Jamie Bill  
(Hon. Secretary)
